

## INFORMATION FOR AUTHORS

Bulletin SNBG" (mass media registration certificate PI №FS77-61874 issued by Federal Service for Supervision of Communications Information Technology and Mass Media (ROSCOMNADZOR)) is published by Nikitsky Botanical Gardens - National Scientific Centre (NBG-NSC).

### RULES OF ARTICLE EXECUTION AND PRESENTATION

1. Articles should be in Russian or English, not published or registered in other journals, collections of works before (except thesis reports and material of conferences, symposiums, meetings and etc.).
2. Articles must contain brief and clear summary about current state of the subject, description of research methods, issue and discussion of findings. Article title should correspond its content. An article must be divided into structural parts, cited in the pattern below. Part "Introduction" should include research currency (problem statement and its connection with important scientific and/or practical tasks), analysis of references, used while solving the problem, and research objective.
3. Article is typed in MS Word for Windows (\*.doc or \*.docx). The following page setup should be used: format – A4, page orientation is book, border size is 2,5sm, print – Times New Roman 12 pt (except summaries, key words, figures and tables, which are typed in 10pt – see patterns below), indent – 1,25 sm, line spacing of the main text is 1 (single spacing), text is typed without word division, justified alignment, text is not pagged. During execution and formatting of the text or its structural elements, please follow patterns carefully!
4. Publication size shouldn't be more than 8 pages. Relative volume of illustrations mustn't surpass 1/3 of total. The list of references shouldn't contain more than 30 sources in survey articles and only 15 sources in articles with author's own research results. Initials are not spaced, but initials and surname are separated by spacing. It's not allowed to carry over surname to another line (I.I. Ivanov, Ivanov I.I.).
5. Summaries are presented in two languages (Russian and English). Summary and key words are placed before "Introduction" in language the article was written (type – 10pt, "Key words" are bolded, key words are italicized). Key words or word combinations are separated by semicolon. After references summary and key words in English are placed. Summary size is 500 characters; a number of key words is 5-7. Execution and formatting setup of these elements should correspond to the pattern (see below).
6. Printed version of manuscript (1 copy) is enclosed by electronic version of files in formats \*.doc or \*.docx (can be sent to e-mail of editorial office).
7. The manuscript is signed by all authors. One page is taken for authors' data: place of work, position, academic degree, address of establishment, contact details for feedback (telephone number and e-mail of all authors). An article is attached by assignment from establishment where the work was carried out. Articles of postgraduates and candidates are attached by review of research supervisor.
8. All articles are anonymously reviewed.
9. Editors of journal have a rule to abridge texts of manuscripts as agreed upon with authors. If editors return an article as requiring improvements authors have one month for it.

6. Decimal fractions are separated by commas: 0,1 or 0,5.
7. Dash isn't put in the beginning of line.
8. Double or multiple space isn't allowed.
9. Such contractions as “i t.d., i t.p.”, indices, subscripts and mathematical signs are not spaced.
10. Numerals and signs %, ° are not spaced.
11. Before measures and signs №, §, © there is a space.
12. Hiphen is used only in compound words such as „vsyo-taki” (anyway), „khimiko-pharmatsevticheskij” (chemical and pharmaceutical), which are not spaced. Dash is used in all other cases and two-sided spaced (18 – 30, 1999 – 2014).
13. Tables and illustrations are put into the text after their first mention. Optimal table size is one page.
14. Before figure, after it and its caption (before text) there are indents of 1 line. Figure caption is centering and typed in lower-case bold letters 10pt, single-space (**Fig. 1** – there is no full stop after numeral). Figures and captions should be placed into a table of 1 column and 2 lines, option “Remove table borders” should be activated to avoid their display when printing (see pattern below).
15. There is an indent of 1 line before table and after it. Word “**Table**” with its number is placed on the right side, table caption is centering below; lower-case bold letters of 10pt, single-space (**Table 1** – there is no full stop after numeral). Table text is typed in lower-case non-emphasized letters of 10pt with single-space. The first words of table column headings are started with the capital letters, subheadings are started with lower-case letters if they are combined in one sentence with heading, with capital letters if subheadings are independent. Measures are pointed after commas. Execution and formatting parameters must correspond to the pattern – see below.  
Repeated text in a table column may be replaced by quotation marks (« - »).  
Quotation marks instead of numerals, notes, signs, mathematical and chemical symbols are not recommended.  
If a table size exceeds 1 page all its columns are numbered by Arabic figures, its continuation on the next pages is typed on the right side in 10pt print (for example, “Continuation of table 1”).

16. Bibliographical references in article text are taken in square brackets, several sources are separated by commas in the order of number increasing.

List of references is formed according to State Standard R 7.0.5-2008. Bibliographical reference. General requirements and rules of formation (reference to State Standard <http://protect.gost.ru/document.aspx?control=7&id=173511>)

List of references is made alphabetically, firstly works typed in Cyrillic symbols are enumerated and after it works in Latin. Bibliographical descriptions of works, published in other languages (for example Arabic, Chinese and etc.) should be presented in English and point origin language (in brackets after page number).

17. In the list of references names of cultivars and genera are italicized; numbers of volumes (issue, № or no) are typed by Arabic figures.

18. Line drawings, maps, graphics and photos are enumerated by Arabic figures as they are mentioned in the text. References to drawings and tables in a text are taken in parentheses and pointed in shorthand form with a small letter (tab. 1, fig. 1), if they are mentioned again, add the word “see” (see tab. 1, see fig. 1)
